## What is Experience Unlimited?

Many professional, managerial and technical workers who are out of work are helping each other find new employment opportunities through "job clubs" sponsored by the California Employment Development Department (EDD).

EDD's job club services are provided at **no fee** statewide through the Department's Experience Unlimited Program. A wide range of professional, technical and managerial job seekers participate in these job-hunting programs.

EDD offices provide space, equipment and a staff specialist for the club. This important service addresses the needs of job seekers who have lost their jobs as a result of corporate mergers, relocations, downsizing, and technological shifts.

Experience Unlimited members work together through the club to network and share job-seeking knowledge and experience. Results have shown that these activities reduce the length of unemployment.

Experience Unlimited is **not** a recruiter or agency, or a resource for entry level talent.
